

## FEASIBILITY STUDY OVERVIEW

### Option I:

Cost: \$0

- Spend up to 1 hour with lab personnel
- Machine Demonstration – this is for Physical testing machinery.
- Coating or laminating feasibility requires Option II

### Option II:

Cost: \$850

- Spend up to 5 hours with lab personnel
- Perform coating and laminating trials to include actual test runs on the coating family of machines.
- Up to 3 different materials/coatings with up to 3 different thicknesses per run.
- Test drive/demo any of the machines on site
- Bring in your own materials to coat or test
- Gain insight on which standard test method applies

### Option III:

Cost: \$1600

- Spend up to 8 hours with lab personnel
- Everything from Option II plus the following:
  - Test method development for your application/conditions
  - Review specifications (temperature, methodology, etc) with our experts
  - Facility tour & lunch included

**\*Please send all MSDS sheets ahead of visit for review.\***

**\*\*Any additional follow up work will be quoted separately.\*\***
